

José Pablo Suárez Gómez

Nicoya, Costa Rica • <https://www.linkedin.com/in/josepablosg/> • suarezgomezjosepablo03@gmail.com • +506 6425-1906

Frontend developer with experience in TypeScript, React, and Next.js. Specialized in modern interfaces, reusable components, and optimized performance using tools like Vite and Astro. Focused on scalable solutions within agile teams.

PROFESSIONAL EXPERIENCE

Municipality of Nandayure
Lead FrontEnd Architect

Nandayure, Costa Rica
July 2024 – Present

As lead frontend architect, I transformed the processes of human resources requests and digital file management through a modern architecture that optimized administrative workflows and improved the experience of internal users.

- Optimized performance using React Query and Zustand, reducing load times by 80% and improving the response of critical modules.
- Implemented security measures in forms with React Hook Form and Zod, reducing vulnerabilities and errors in the processing of sensitive data.
- Designed an intuitive user interface with Next.js and Tailwind CSS, improving accessibility and navigation flows for staff of all technical levels.

Shrinkily App
Founder & Full Stack Developer

January 2024 – Present

As founder and lead developer, I created an innovative link management platform specialized for content creators, offering advanced solutions focused on security, performance, and user experience.

- Implemented high-performance architecture with Next.js, ISR, and SWR, achieving load times under 200ms even on limited connections.
- Developed a robust security system with OAuth 2.0, JWT, and link protection, ensuring full protection of sensitive data.
- Created a distinctive visual experience with Tailwind CSS and Shadcn/UI, incorporating micro-interactions and animations that increased user engagement and retention by 45%.

EDUCATION

Bachelor’s Degree in Information Systems Engineering, Universidad Nacional de Costa Rica

Nicoya, Costa Rica
July 2024 — Present

Diploma in Computer Applications Programming, Universidad Nacional de Costa Rica

Nicoya, Costa Rica
March 2022 — June 2024
